Sowing Seeds of Hope

Transforming
poverty into
abundance
one life at a time

Hunger is an obstacle to hope for many children in the world. Sowing Seeds of Hope is a Trinity Life Group. Our goals are to work towards eliminating hunger and help financial conditions and education for women and their children.

Like the Mustard Seed, we will start small, but have a vision for impacting the lives of women and children in Nicaragua and beyond, trusting that God will also transform our own lives.

Typical home in Nicaragua

Sowing Seeds of Hope seeks to raise money to fund our mission, which is to transform poverty into abundance one life at a time.

We welcome donations in return for useful hand-made items, available at bazaars and community markets. We recycle/reuse materials such as plastic bags, fabric samples and leftover fabric to make such items as jewelry, gift bags, tote bags, coasters, pillows, cases for eyeglasses, wine bibs, cosmetic bags, table runners, or whatever might catch your imagination.

Sowing Seeds of Hope is excited to announce that in November a team of four women were able to go to Nicaragua to start a sewing co-op. Each woman paid for her own airfare and accommodations.

We started with five women, two sewing machines, one serger, and enough materials and supplies so they could continue making products to sell. We continue to support them with supplies and a sewing instructor. This was all made possible by your purchases and donations.

All proceeds from their sales go to Transforming Poverty Into Abundance One Life At A Time.

Sowing Seeds of Hope recycle project: 100% of the proceeds from crocheted tote bags, the tote bag kits, and jewelry made from pop top tabs is dedicated to improving the nutrition and education of women and children in the world.
